OBJECTIVE

Java Full Stack Developer with 1 year of experience in building scalable web applications using Java, Spring Boot, React, and MySQL. Skilled in developing RESTful APIs, responsive UIs, and microservices. Proficient with Git, Postman, JUnit, and Mockito. Committed to clean code, team collaboration, and delivering high-performance solutions.

EDUCATION

Bachelor of Technology, Artificial Intelligence Data Science Arjun college of technology, Coimbatore (TN).	2020–2024 8.4CGPA
Higher Secondary	2019 – 2020
S.L.N.M.H.S School	84%
SSLC	2017 – 2018
K.V.M.H.S School	84%

SKILLS

- Programming Languages: Java, JavaScript, PHP
- Backend: Java, Spring Boot, Spring MVC, Spring Security, JPA
- Frontend: React.js, HTML5, CSS3, JavaScript, Material UI
- Frameworks & Libraries: Spring Boot, React.js, Vite, Material UI
- Database: MySQL, DynamoDB
- Devops & Tools: Git, Maven, Postman, Eclipse, GitHub, Hostinger, Google Colab, Visual Studio Code
- Testing & API: JUnit, Mockito, RESTful Web Services
- Concepts: RESTful APIs, Full-Stack Development, Backend Integration, Deployment & Hosting

EXPERIENCE

Java Full Stack Developer | On-Site | CubenSquare

Aug 2024 - Present

- Developed and maintained scalable web applications using Java, Spring Boot, React, and MySQL. Built
 and integrated RESTful APIs and microservices for robust backend services.
- Designed responsive UIs with React, ensuring cross-device compatibility.
- Utilized Git for version control, Postman for API testing, and wrote unit tests using JUnit and Mockito.
- Worked in agile teams, focused on clean code, performance, and timely delivery.

PROJECTS DONE

Learning Management System (LMS)

Tech Stack: React, Java, Spring Boot, MySQL, REST API, Material UI

- Developed a full-stack LMS with role-based access for admins, instructors, and students.
- Built REST APIs for user/course management and performance tracking.
- Designed responsive UI using Material UI for better usability.

Fuel Management System (FMS)

Tech Stack: React, Java, Spring Boot, Maven, REST API, Material UI

- Built a fuel tracking and reporting system for vehicle fleets in Canada.
- Implemented backend APIs for fuel logs, reports, and vehicle info.
- Created dynamic dashboards and user interfaces using React.

Pick n Pack - Grocery Delivery App

Tech Stack: React, Java, Flutter (Dart), Material UI

- Designed a 3-role grocery delivery platform (Admin, Driver, Customer).
- Built admin panel using React + Java for managing orders and inventory.
- Developed customer and driver apps in Flutter with real-time tracking and notifications.

VRS Bloom – Flower Shop Billing Software

Tech Stack: PHP, HTML, CSS, JavaScript

- Created custom billing and invoicing system for a flower shop.
- Implemented product entry, sales tracking, and invoice printing features.
- Built responsive UI with HTML/CSS and interactive features using JavaScript.

Warehouse Management System for Drone Company

Tech Stack: React , Java , MySQL

- Developed a real-time inventory tracking system for drone parts and components.
- Built a responsive UI with React and integrated order management and Admin Dashboard for efficient warehouse operations.

Plant Selling Store (Static Web Page)

Tech Stack: React, Vite, Material UI

- Created a static website for a plant selling store using React, Vite, and Material UI for a modern and responsive design.
- Focused on product catalog display and user-friendly interface for seamless shopping experience.

INTERNSHIP

Cube N Square – Java Intern

Duration: 1 month

Domain: Java, Spring Boot, Maven

Description:

- Gained hands-on experience in Java backend development using Spring Boot and Maven.
- Built and tested RESTful APIs for a mini project and learned key concepts of Java-based web application development.
- Worked on integrating backend services and understanding real-world backend architecture.

Digital Garage – Business Analyst

Duration: 3 month **Domain:** Agile, Jira **Description:**

- Gained hands-on experience in business analysis, focusing on decision-making and brainstorming strategies to drive project success.
- Actively participated in agile project workflows using Jira to track progress, manage tasks, and collaborate with cross-functional teams.
- Contributed to requirements gathering, data analysis, and problem-solving efforts for process improvements.

CERTIFICATIONS

- Received recognition from the Tamil Nadu government for contributions to the Naan Mudhalvan project.
- IBM Data Analytics with Python IBM Certified : Completed course on data analysis, visualization, and data processing with Python using tools like Pandas, Matplotlib, and NumPy.
